

AI AUTOMATION

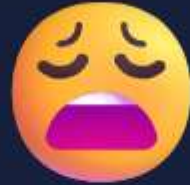

I automated my entire YouTube channel with AI.

Script → Thumbnail → Captions → Upload.

Zero manual work.

THE PROBLEM

**Creating YouTube content is
exhausting.**

Writing scripts. Designing thumbnails. Writing descriptions.

Adding captions. Uploading.

Every. Single. Week.

THE TECH STACK

7 tools. 1 pipeline.

GPT-4o

Scripts, titles, tags & descriptions

DALL-E 3

AI-generated thumbnails

Whisper

Auto captions (.srt)

ElevenLabs

Text-to-speech voiceover

Zapier

Weekly schedule trigger

Python + YouTube API

Direct upload + metadata

HOW IT WORKS

From trigger to uploaded video

- 1  Zapier fires every Monday 9 AM
- 2  GPT-4o writes script, title, tags & description
- 3  DALL-E 3 generates the thumbnail
- 4  Python uploads everything to YouTube

THE COST

4–8 videos/month
for as low as \$15

GPT-4o

\$10–20

DALL-E 3

\$5–10

Zapier

\$0–20

YouTube API

Free

Total / month

\$15–50

OPEN SOURCE

**It's open source.
Free to build.
Ready this weekend.**
